

Ward 1/8 NPA
May 10th, 2017
7-9pm

McClure Lobby Conference Room, UVM Medical Center
Draft Agenda

7.00 p.m.: Welcome and introductions

7.05: Ward 1 Housekeeping

7.10: City Council Updates: Sharon Bushor, Adam Roof, Richard Deane

7.30: Speak Out

7.40: Vermont Lake Monsters: Kyle Bostwick, VP Monster, making his pitch for the upcoming season. Neighbors' input encouraged!

8.00: James Lockridge of Big Heavy World to enhance awareness of the pending public RFP for Memorial Auditorium/Gateway Block, hoping to gain general support for sustaining "242 Main". (Note that this (Aud) topic will also be on the June 14th agenda.)

8.20: City Director of Public Works, Chapin Spencer, with updates on the DPW Capital Plan, and seasonal road paving, sidewalk repair. He has also been asked to address traffic calming measures on East Ave, the proposed crosswalk on Colchester Ave, and an update on the City Sidewalk Management Plan.

9.00: Close

Parking is free in the McClure Garage, courtesy of the Medical Center.
All are enthusiastically invited; looking forward to seeing you there.

Ward 1/8 NPA
May 10th, 2017
7-9pm

McClure Lobby Conference Room, UVM Medical Center
Draft Minutes

Start 7:06

Steering Committee members present: Richard Hillyard-Ward 1, Dana Kamencik-Ward 1

Housekeeping

Ward 1 NPA budget vote to support Front Porch Forum \$100.00 and UVM Medical Center Community Garden \$50.00.

City Council Updates

Adam Roof

Entering Budget Season-Wed 17th 5-7pm budget overview from Clerks/Treasurer, 18th DPW, Parks, Code and Mayor. 24th CEDO, Planning and Zoning, BCA, Airport, Church Street Market Burlington Telecom, Police, Capital budget. YMCA sale is finishing campaign. Handy funeral home sold and will become a pizza place. Working on sexual assault training for downtown bar staff which was passed City Council and training will begin in September. Appointed chair of CDNR. 1st meeting is May 15th at City Hall

Richard Dean

COTs walk happening and has opened up new housing. There are a number of vacancies on City boards and need people to get involved. See City website for openings. <https://www.burlingtonvt.gov/Public-Boards> Working on natural system of trails to link around Burlington. Proposing a summit of people who oversee these trails to create an initiative to promote and improve preservation and connection. Form Base Code is going to come to City Council that will focus on downtown and waterfront. Form Base Code is descriptive and don't have to go to DRB if meet all the code requirements.

Sharon Bushor

Recognize Wayne Senville who is stepping down from DRB and hope that someone from Ward 1 will apply. On Board of Finance. This section is going through permit reform. Brought out by contractors and residents that were frustrated about permitting process. There is a whole process and money set aside mostly that will go to software updates to improve responsiveness. Another idea is to post small projects on FPF and have large projects come to NPA. 600k is set aside to come to permit reform. Budget reflects increase to City Council pay and Housing Trust Fund, increase of 3 police and 3 firefighters. Staffing for public information manager to field all the questions, early learning, all year warming shelter, more in street outreach.

Speak Out

Ward 1 task force May30th in Mary Fletching room. Losing balance in the neighborhood and landlords converting resident homes into single units. This is again the City's Stabilization plan. Took to Supreme Court and won. Will need to go in front of environment plan. The City does not support rent enforcement which is in favor of landlords. Need to have strong. East Ave. had an officer do a 5-hour shift patrol and officer issued a \$1700.00 in fines

UVM

699 bed complex is being constructed at the same as Medical Center construction. Everything has gone smoothly and will be read yin fall. 1st phase of STEM project is done. Converse Hall will have some basic reinvention. Caulking Construction will be starting this fall.

VT Lake Monsters

Lake monster entering 24th season. June 21st is official opening but will have some opening events tp start June 3rd. 3 Firework times July 15, Aug. 19, Aug. 26. 103 people on staff in season because take customer service and positive experience strongly. Have a partnership with Oakland and many of the strong players come out from this City. If there are any concern from neighbors reach out to Kyle Bostwick-VP of Lake Monsters. See attachment for season information.

242 Main Memorial Auditorium-James Lockridge

Memorial is Burlington's cultural brand. There was almost a public process but was halted when the Administration and UVM were in a sales negotiation which resulted in UVM not buying. Currently it will take 6-8million to repair and bring the building up to function. There was a ballot item in 1993 that would fund City Hall, Fire Dept. and Memorial Auditorium but got voted down because didn't get 60% of the votes. This was a three-part series and ballot was over 20years old. The City shouldn't let municipality buildings go. Coming to NPA to ask for 242 Main to be part of the RFP to future of Memorial Auditorium regardless if the auditorium gets repaired, destroyed or rebuilt so the program and legacy of 242 Main can continue. The City will create a panel to create a RFP of Memorial but don't have insight of what this RFP will detail. Go to save242main.com to sign online petition about the RFP. Updates of this petition is automatically sent to City Council, the Administration and Director of CEDO.

DPW-Chapin Spenser

Multi-year effort 27 million and 8 million in water mains. 6 miles this year up from 1 mile a year. Ward 1 water main replacement and will need traffic control. Route 7 bridge will be redesign. Working with CCRPC on this project. Campus Kitchen will be ADA assessable. DPW Associate planner being hired. This year DPW will triple amount of work will be hiring communication so public can be informed. If there are spots that are hazards and further down the list, then can call DPW to do spot fix which will be low minimal cost. There is other traffic calming measure other than speed bumps. Can use enforcement and stop sign. There are 7miles of streets that don't have sidewalks on either sides. This year have identified a number the gaps to address this. This will be prioritized due to demand of usage and condition. The tool of See Click Fix is a good tool but staff needs to balance the work of reactionary and long term solutions. As part of Bike Walk plan is to reduce injuries to pedestrians and bikers over a span of 10 years such as bump outs. Speed bumps are being phase out to be replaced with speed humps.

Meeting End: 9:15pm Minutes taken by Phet Keomanyvanh-CEDO

CITY POLICIES
THE CITY OF BURLINGTON WILL...

- Encourage the reversion to single family occupancy of properties, especially in areas with high concentrations of student rental housing, which have been converted to multi-unit dwellings.
-

To: Richard Deane
From: Zoe Richards
Re: Thoughts on connecting and promoting natural areas in Burlington
Date: March 22, 2017

A goal: build a Trail Around Burlington.

What steps are needed to create a connected, well-signed, publically accessible trail network through Burlington's many natural areas and open spaces—that links to the existing bike path?

The Situation Today:

- *"48 miles of trails is great but too bad they aren't connected. Can't get there from here!"*
~comment from Ward 6 resident at 2013 public meeting about open space in Burlington.

Consider this running/biking trip through Burlington: start at McNeil, head north through the Intervale, cross through vegetable farms and corn field, pass the Ethan Allen Homestead, over the 127 pedestrian bridge and into Ethan Allen Park, hazard a trip across North Avenue and down to the Elks Club. Travel through their parking lot, and along their land to the bike path. Travel south and turn into Rock Point, wind your way along the cliffs and back out to the bike path, then through the maze of homemade mountain bike trails on the Arms Grant to finish at the high school. Phew, you didn't get lost.

Or consider this: a determined hiker could work her way along the west side of the Winooski River from South Burlington to the mouth of the river. It's many miles of fragmentary homemade and formal trails, in many spots without signs or official sanction. But the point is: the land is open and mostly public and potentially connected as a major new trail corridor for our city that could link with the existing bike path.

These—and many similar courses throughout Burlington—are favorite outings of many citizens.

Along the way, the hiker or biker may have visited beautiful wild spaces, public parks, productive gardens and farms, urban forest, vacant lots, remnant sand dunes, or an historic cemetery. They will have traveled through rich and ecologically (and agriculturally) valuable river floodplain acreage. They may have seen globally rare plants. They will have traveled on wildlife corridors traveled by bobcat, moose, fox and mink.

But it is strictly a do-it-yourself operation of only those in the know. These courses may cover many land ownerships and managers including the Intervale Center, Winooski Valley Park District, Burlington Parks & Rec, Episcopal Diocese, BHS, Elks Club and UVM.

Many of the trails—and potential pathways—have no signage, maps, parking, or interconnections. And—except for the bike path—there is little shared vision of how the many pieces of conserved and open land in the city are, or could be, connected to each other.

Therefore, some questions to consider:

- How can we improve this situation on our wild and natural lands in the city?
- Who can help to shepherd management of this undervalued green asset--to make it not just connected in a haphazard manner, but formally connected for citizens by trails, signs, programs?
- Can we encourage more money toward trail improvements, trail reduction, programs to expand access, and signage?
- On the largest scale, how can we do a better job of celebrating, promoting, conserving and using our natural and wild areas?
